- Click to on a vehicle (red or green) to select it.
- Click on any adjacent empty cell to move the selected vehicle to the empty cell.
- A vehicle can only be moved one cell at a time, in the same direction (e.g., vertically aligned vehicle can only be moved up or down)
- To win the game, move the red car to the cell without a black border.

One vehicle on the board is designated as "FORBIDDEN". The puzzle can be solved without moving the forbidden vehicle. If the forbidden vehicle is moved, the game engine will automatically undo the move.
